

**HighReach Learning Curriculum for Pre-K  
Planning Supplement  
for use with the  
NEW Head Start Child Development and Early Learning Framework**

## **Topic: Creations and Innovations**

The following charts show all eleven domains from the Head Start Child Development and Early Learning Framework and the elements for each one. The charts list page numbers of experiences that address each Head Start element within the topic Creations and Innovations. The three new domains are color-coded in yellow. The eight existing domains are color-coded in blue.

The topic Creations and Innovations is divided into **four subtopics**. (These may also be found on the concept web on pp. 6–7 or the Table of Contents on pp. 2–3 of this topic's Learning Experiences Guide.)

- Some Things Move
- Some Things Make Work Easier and Play More Fun
- Some Things Make Sound and Communicate
- Some Things Decorate Our World

The activities in each subtopic column are categorized into **five HighReach Curriculum Learning Domains** as they are found within the Learning Experiences Guide for this topic.

- Language and Emergent Literacy
- Science and Math
- Creative Expression
- Physical Health and Development
- Social/Emotional

The experiences that offer opportunities for growth in each Head Start domain element are listed on the charts along with the page numbers from the Learning Experiences Guide. You will notice that an experience may be listed in a HighReach learning domain like Language and Emergent Literacy but still addresses goals in other Head Start domains like Social Studies or Logic and Reasoning.

Each topic from *HighReach Curriculum for Pre-K* is packed with learning experiences that can be used to promote development and learning. Because the experiences are designed to offer choice and support children's interests and curiosity, children and teachers may take them in many different directions. This means the experiences are not narrowly focused on one specific skill but are open to promoting integrated development across learning domains.
