

Skin Covers Many Things

Customize the Web
 What can I add to make the web reflect the children, families, and community?
 Are there other things:
 Children said on the K-W-L?
 I have observed or heard that tell me children are interested in other aspects?
 Happening in the community that would expand or support this idea?
 Just jot it down here!

Tweak, expand, and adjust our experiences to fit your children's needs and interests based on how you **customize** this web.
